

THE DELIVERABILITY DILEMMA

What If Your Email Bill Never Went Up?

Traditional email platforms punish business growth. The larger your list gets, the higher your monthly fee, even for inactive contacts.

LEGACY TOOLS: RISING BILL CAMPAIGNSTACK: FLAT

1. The Subscriber Tax

Paying thousands monthly just to store customer contacts in someone else's closed database.

2. Single-Provider Lockout

When your single sending vendor has an outage or rate freeze, business outreach stops completely.

3. Spam Folder Trap

Burst sending thousands of emails all at once triggers spam filters and damages your domain score.

ANNUAL SAAS OVERHEAD SAVINGS (INR)

25k Contacts: **Save** ~₹2,00,000 / yr
100k Contacts: **Save** ~₹7,00,000 / yr

The CampaignStack Breakthrough

Separate subscriber lists from delivery pipes. Connect Amazon SES, Google, or Brevo, and enjoy automatic backup with human-paced delivery.

DISPATCH SOVEREIGNTY

100% PRIVATE DATABASE

CORPORATE SETUP & DISPATCH

Ready to Take Full Control?

Our engineers configure your dedicated dispatch server, verify DNS records, and connect redundant relays.

MONTHLY COST (100,000 SUBSCRIBERS)

Mailchimp Standard ₹62,000+/mo

Klaviyo Enterprise ₹90,000+/mo

CampaignStack Flat & Affordable (~₹800/send)

100% In-Box Delivery: Paced, human cadence prevents spam traps

No Technical Hassle: Complete deployment & DNS setup by Carving IT

SIMPLE • RELIABLE • AFFORDABLE

CARVING IT

OVERVIEW & MISSION

Built for Businesses That Value Their Audience

CampaignStack was developed by Carving IT to give founders and marketing teams total control, rock-solid reliability, and honest flat pricing.

You Own Your Audience

Your contact list stays safely in your private SQL database. No third party ever mines, analyzes, or holds your contacts hostage.

Total Provider Freedom

Connect the email senders you trust, including Amazon SES, Google Workspace, Brevo, and Microsoft 365, with zero vendor lock-in.

Always-On Protection

An intelligent safety net automatically routes around slow servers so your critical marketing newsletters always arrive on time.

"Scale from 5,000 to 500,000 contacts without paying a single rupee more for list storage."

DATA PRIVACY GUARANTEE**100% PRIVATE****HIGH-THROUGHPUT DISPATCH ENGINE****CORE CAPABILITIES**

Simple Tools for Incredible Delivery

Everything you need to send campaigns that actually land in customer inboxes, explained in plain English:

Smart Automatic Backup

If Server A gets busy or encounters an issue, Server B takes over instantly. Zero lost emails.

Natural Paced Sending

We pace out your delivery with natural human delays so Gmail welcomes your email as friendly mail.

Clean Contact Verification

Checks for typos and dead inboxes before dispatching, protecting your domain sender score.

4-Step Studio Console

Pick your audience, choose your servers, select your sending speed, and watch it deliver live.
